Subject: CFAC Phase I DSR review

Flag: Follow up

Hello Mike:

CDM Smith has reviewed the revised Phase I Site Characterization Data Summary Report, Columbia Falls Aluminum Company NPL Site, that Roux Associates sent in redline format on July 27, 2017. We find that all of the comments we have previously made were adequately addressed per our meetings and calls with CFAC/Roux/Glencore, or as provided in the revised text. Therefore, we recommend that EPA approves this document without comment.

We have the revised downloaded the Screening Level Ecological Risk Assessment, and Erin hopes to get to it later this week.

Let me know if you have any questions.

Gunnar Emilsson, P.G., P.E., BCEE
